

To the Public,
AND to my friends and patrons in Wilmington, and its vicinity, I return my most sincere thanks for the patronage so liberally bestowed on me since my residence amongst them, and hope, by strict attention to business and every effort to accommodate, to merit a continuance of the same.

I have just returned from the Northern Markets where I have been for some time selecting my **SPRING STOCK,** and have no hesitation in saying that I have succeeded in selecting a **STOCK OF GOODS** not to be surpassed, and rarely equalled in this market, comprising every article usually kept in a **MERCHANT TAILOR'S ESTABLISHMENT,**

Gentlemen's Furnishing Store.
I have also on hand a splendid stock of **Ready-Made Clothing,**

got up especially under my own superintendence while in Philadelphia; and I am disposed to sell them as cheap as they can be purchased here of any where else.

Country merchants may do well to call and examine my stock, as I think I can make it an object worth their attention to purchase Clothing by the wholesale.

Save your Corn Cobs and Shucks.
TO THE PLANTERS AND MILLERS OF NORTH CAROLINA.

THE undersigned has obtained Letters Patent, to enable common Mill stones (or rocks) now in use, to grind **CORN COB AND SHUCK** into meal, for Horses, Mules, Cattle, Hogs, &c., thereby saving more than one third of a crop, which is an important item with planters. The machinery used for the above purpose is simple and durable, and cannot, with fair means, get out of order. It will last as long as the Stones last, with an expense of 50 cents every five years. To enable the common Mill Stones to grind corn into meal, requires no new buildings or extra power. It can also be applied to Horse Mills, Thrashing Machines, Gins, or any given power known. The same Mill will grind one-third more of Corn Meal by the introduction of this Machinery, and can be changed from grinding Corn and Cob, to grinding Corn Meal in the space of thirty seconds. Corn alone, when fed to stock, is said to be the most practical and scientific Planter, constituting in its effects, producing foundry, cholera, and various other maladies which are incident to stock. Grinding cobs with the Corn makes a food congenial with their nature, and cannot produce any of the serious results above mentioned. Stock, when fed on Corn exclusively, are deprived of the benefits of distension (so necessary to the proper health of animals) by their being unable to eat a sufficient bulk to produce distension before the animal becomes gorged. Cobs ground with the corn, produce the necessary distension, without any danger of diseases arising from overeating. Corn and cob meal is improved by scalding, and still more by boiling, and yet more by a partial fermentation. All the preparations facilitate digestion for Hogs. But Horses and Mules will not eat fermented food, consequently they will require it dry or partially wet with cold water. Horses, Mules and Oxen, when fed with unground food, void much in an undigested state, which is of course lost for all beneficial purposes. Read the subjoined certificate.

The undersigned can be addressed at Raleigh, and all calls will be attended to punctually and with despatch by himself or Agent.

W. F. COLLINS.
March 14, 1845.

CERTIFICATE.
Having been solicited by Maj. Collins to have my Mill adjusted to grind Corn in the Ear and Shuck, I consented that he should do so as an experiment; and I am able to say that it grinds Corn in the Shuck at the rate of 30 bushels per hour; and the dressing of the stones is so improved, that it grinds shelled Corn more than twice as fast as before, and by my watch, at the rate of 15 bushels per hour, and the meal finer than usual. I deem it a valuable improvement, and shall purchase the right to use it, as it will afford me a speedy way of feeding my horses and cattle, and save much thereby.

12 COPIES TO CLUBS FOR \$30.
THE COLUMBIAN MAGAZINE FOR 1845.

EDITED BY JOHN INMAN & ROBERT A. WEST.
Prospectus for the Second Year.

AT the close of his second volume, the Magazine having been commenced on the first of January, 1844, the publisher finds himself irresistibly called on to express the satisfaction and gratitude with which he has been filled by the brilliant and unexampled success that has attended his endeavors to win the public favor. Notwithstanding the difficulties, disappointments and vexations that almost invariably follow the establishment of a new periodical, in the production of which there must be the harmonious co-operation of many hands and many hands—notwithstanding occasionally short-comings, especially in the pictorial department, which no care or diligence could avert and no expenditure prevent, the **COLUMBIAN MAGAZINE** has gone on steadily increasing in support and popularity from the opening number, and if the unthought unsolicited testimony of the press may be received as unwaveringly by partiality and unbiassed by friendship, the efforts of contributors and editor have been satisfactory to the public and accepted as fulfilling the promises made for them at the commencement of the enterprise.

The publisher undertook the work with a firm conviction that the great city of New York was the best and true home for a magazine of general literature; that notwithstanding the failure of many previous attempts to establish such a work, there could be no impossibility of success with sufficient capital, perseverance and the right system of management both by publisher and editor; stimulated by this conviction he embarked in the enterprise and the result of the first year has proved that his judgment was correct.

It has long ceased to be necessary, or reasonable, that we should speak of the **Columbian** as an experiment. At all events, it is now an experiment substantially tried. We feel ourselves upon a firm basis as any similar journal in the world.

Our principal care now regard not so much the securing what ground we have gained (for we consider this sufficiently secure) as the extension of our sphere of action and utility—not so much, even, the mere enlargement of our subscription list, as the most suitable modes of catering for the amusement (and shall we say occasionally for the profit) of our subscribers in the present and in the future—the many whom we have, and the many more we shall undoubtedly have as time rolls on.

We have made arrangements which will enable us to present our friends with embellishments of very superior taste, style and finish. In this respect it is our firm purpose, if possible, to outvie all competition. Our music and engravings, we confidently believe, will not be equalled—very certainly they shall not be surpassed in real merit by those of any other magazine. We propose to give each month two or more superb engravings, independently of two pages of music, by the most eminent composers, and a plate of authentic fashions.

Regarding the literary and editorial conduct of the **Columbian**, the publisher does not feel called upon to say more than a very few words. The general management of this department is, as heretofore, entrusted to a gentleman possessing every qualification for the task, and who has given abundant evidence, not only of the highest ability to put forth a meritorious magazine, but of the ability to put forth a magazine exactly adapted to the tastes of our readers. The publisher, therefore, has every confidence that what has already been done for the literary value of the journal will be done again. We are perfectly willing that our future in this respect shall be estimated by our past. The subjoined list of those who have furnished articles for the **Columbian** during the past year will satisfy, we feel assured, the most fastidious that we are resolute to spare in no particular neither exertion or expense.

With the aid of these contributors, (of whom it is needless to say one word in the way of commendation,) and of numerous others perhaps equally meritorious if less celebrated, who have promised us their support, we flatter ourselves that, as a literary work, the **Columbian** need be under no apprehension of being excelled.

But what we have done is already before the public; and in respect to what we intend to do, it will be both wiser and more becoming (although less fashionable) not to boast. We may be permitted to assure our friends in brief, however, that we have matured numerous plans (for the third volume) with which we feel confident they will be pleased. It is our purpose to put forth every energy; and it will be no fault of our own if the **Columbian** shall not be found at least equal to any magazine, of any class or price, in America.

DEALERS IN PERIODICALS throughout the United States and the Canadas, who wish to become agents for the **Columbian Magazine** will please apply to the publisher immediately. The usual discount will be made to them.

V. R. PEIRSON,
MERCHANT TAILOR.

WILMINGTON, N. C.

HAS just returned from New York with a large and well selected stock of **Fall and Winter Goods,** now opening, to which he solicits the attention and favor of a call from the public. Having had long experience in his business as Merchant Tailor, he flatters himself that his stock, selected by himself, and now opening, cannot be surpassed by any similar establishment in Wilmington, or elsewhere.

The following are some of the goods now opening, viz: **Superfine French and English Black, Blue, Brown, Office, and Invisible Green Broad Cloths, Pilot and Beaver Cloths, Plain and Fancy French and English Cassimeres of superior qualities, Sattinets of various colors and qualities, Kentucky Jeans, VESTINGS.**

of the very latest styles and patterns, consisting in part of rich French and English plain and cut silk Velvets, Toinettes, Marcellines, Meunines, &c. Also, a full and general assortment of **Gentlemen's Undergarments,** such as Linen and Cotton Shirts, Under Shirts and Drawers of Silk, Merino, Buckskin, and Cotton; Hosiery of various qualities and descriptions, extra rich, fine and plain Silk, Satin and Mohair Scarfs, Cravats, Ties and Handkerchiefs; Suspenders of various qualities. Black, White, and Colored Kid, plain, figured, and colored silk, silk and woolen, thibet and cotton Gloves. Also, a full assortment of **HATS:**

Beaver and Mole skin, of the latest style and fashion, round and square crowned, sporting Hats: blue and black cloth and glazed silk Cape silk and Gingham Umbrellas. Indeed every article in his line, too numerous to mention.

MERCHANT TAILOR, to which, as before observed, he solicits a call from the public, also a share of public patronage, and feels, as he ever shall, grateful for former favors conferred upon him.

In addition to the above, the subscriber has always on hand a large and general assortment of **Ready Made Clothing,** which will be sold at prices as low, and on as good terms, as can be purchased at any other establishment in Wilmington.

M. H. S. KELLY.

has also recently returned from New York, where he spent two months during the summer for personally gaining and acquiring all the latest styles and systems of cutting, in which line, as Cutter, he has not his superior. He will continue to have charge of the tailoring department. When in N. York I selected some of the best workmen that could be obtained, who have arrived. With the many advantages the subscriber has, he flatters himself that all work entrusted to his care will give entire satisfaction; should any article, when made, prove otherwise, the party is at liberty to return it on his hands.

Notice.

THE subscriber has returned from the North with a large and carefully selected stock of Drugs, Medicines, Paints, Oils, Dye Stuffs, Glassware, Shop Furniture, Surgical Instruments, Perfumery, &c. &c.,

to which the attention of Physicians, country merchants, and the public generally, is respectfully invited. His stock of Drugs and Medicines comprises every article usually called for in that line. Warranted of genuine quality, for the supply of Physicians. A beautiful assortment of Pocket, Tooth, Cupping, and Amputating Instruments, Scarificators, Catheter's spring and thumb Lancets, Patent Enema Machines, Trusses of every description, medicine spoons, nipple shells, breast glasses, sucking bottles, horse spring Lancets and Fleams, &c.

The shop furniture consists in part of tinctures, salt-mouth and specie cap'd Bottles, from 1 gallon to 3 oz., graduated glasses, pill tiles, spatulas, funnels, iron and composition mortars, scales and weights, tinctment and extract pots, and prescription vials.

Among his perfumery will be found a choice assortment of fancy, plain and shaving soaps, and in great variety, tooth, hair and clothes brushes, a choice collection of toilet powders and puffs, Persian scented bags, smelling bottles, hair oils, dressing, fine ivory, and tortoise shell pocket combs, rose water, German and other colognes, &c., Castile, common, brown and yellow soaps, starch, spices, lamp glasses and wicks, winter bleached sperm oil, lined, olive, sweet and train oils, ink, and writing paper, and a variety of other things usually kept in establishments of the kind.

Particular care has been taken in selecting the **Patent Medicines.**

which in every instance have been purchased either the patentees or their accredited agents. A choice collection of **Segars, Snuff, Tobacco,** &c. As the greater part of the above has been purchased for cash, he is determined no other house in the State shall UNDERSELL HIM. Therefore, Physicians will do well to give him a trial before purchasing elsewhere.

He has now facilities for putting up and packing in a style equal to that done at the North. He would take this opportunity of returning thanks to the Physicians and the public generally for their liberal patronage since his commencement in business, and begs to assure them that nothing shall be wanting on his part to merit a continuance of their favors.

All orders from the country promptly attended to.
